

FAIRFIELD HOSPITAL MAIN CORRIDOR

IN BRIEF

Sector: **Healthcare**
Contractor: **Northern Care Alliance**
Products: **Inpro IPC 1200 Combi-Handrail**
Approx. Value: **£25,000**

PRODUCT FEATURES

- Offers support and guidance.
- Comfortable grip diameter and thumb groove.
- Option available designed to meet the Equality Act 2010 and HBN 00-04 guidelines.

The handrail has made a big visual impact and great practical improvement to the area, and has since been replicated in two other areas of the hospital.

PROJECT OVERVIEW

The main corridor within Fairfield Hospital looked tired, it had unsightly and unsafe old wooden handrails which were putting patients at potential risk.

The replacement of handrails needed to fit within the current colour theme and be both practical and aesthetically pleasing.

SOLUTION

The Intastop's Inpro IPC 1200 Combined Handrail in Pewter Grey was chosen due to its style and versatility. With a comfortable, smooth grip diameter and thumb groove, this handrail is perfect for guidance, rest and support.

In addition, the combi-design of the handrail means it also offers impact protection from wheeled traffic. Acting as a stylish wall guard, the textured finish disguises effects of any damage.
