

HEREFORD COUNTY HOSPITAL

IN BRIEF

Sector: Acute Healthcare
Contractor: Sodexo, Hereford Trust
Products: Inpro IPC Sanparrel Sheet, Inpro IPC Wall Guards, and Corners Guards
Approx. value: £15,000

PROJECT CHALLENGES

- Colour matched products, to offer enhanced aesthetic.
- Minimal disruption to busy areas during installation.
- Durable and long lasting solution for walls and corners.

Having a variety of products and colors to choose from was crucial for us. We required high-quality solutions that could seamlessly match our existing interior. Excellent service and detailed information were also key, and Intastop provided everything we needed.

PROJECT OVERVIEW

Hereford County Hospital noticed increased amounts of wall damage around lift areas where there was a high volume of traffic.

In order to protect the area, help reduce maintenance costs and minimise operational disruption, the Trust needed a solution that would help shield the walls from further damage while maintaining the hospital's aesthetic standards.

SOLUTION

Intastop's Inpro IPC Sanparrel Sheet, wall guards and corner guards that could withstand high traffic, particularly in busy lift areas, ensuring both functionality and design were chosen. This solution would not only reduce repair costs but also enhance the overall safety and efficiency of these high-traffic areas, whilst enhancing their visual impact.
