SECURA™ Bedroom Door

Ensuring Safety, Enhancing Comfort, Promoting Healing

At Intastop, we recognise the critical need for safety, well-being, and rehabilitation in mental healthcare environments. Introducing the **SECURA™** Bedroom Door – a specialised doorset designed to meet the stringent demands of mental health facilities, providing solutions for abuse, anti-ligature, and barricade situations while supporting patient rehabilitation through thoughtful design.

Key Features: Innovative Safety Design: The FD30 **SECURA™** Bedroom Door is engineered to create a serene and secure environment. Its unique inward-opening design can be swiftly converted to open outward during emergencies, offering unmatched reassurance for care givers and personnel.

Maximum Protection: Opt for the **SECURA™** Bedroom Door for its robust, impact-resistant construction. This doorset minimises ligature risks and prevents barricades, ensuring the continuous safety of service users.

Promoting Rehabilitation: Our design philosophy centres on healing through thoughtful design. The **SECURA™** Bedroom Door not only improves safety but also contributes to a therapeutic environment, aiding in the rehabilitation process for patients.

Trusted Quality: Crafted with meticulous precision, the **SECURA™** Bedroom Door boasts exceptional durability and performance. Our commitment to quality and reliability ensures that you receive a product that stands the test of time.

SECURA™

Ensuite Door

Maintaining Dignity, Improving Safety, Promoting Healing

Introducing the SECURA™ Ensuite Door by Intastop Ltd – a complete solution addressing abuse and ligature concerns while maintaining the dignity of service users and supporting their rehabilitation through thoughtful design.

Key Features: Comprehensive Alarm Systems: Choose from a sloping door or a door fitted with our industry-leading Door Top Alarm. This system significantly reduces the risk of ligature and enhances the overall safety and peace of mind.

Enhanced Safety: The SECURA™ Ensuite Door can be fitted with the Intastop Shrouded Full Mortice Hinge with a domed cap, further reducing the risk of ligature on the hinge top.

Hygienic Design: Our Hygienic PVC Sheet, used in the door fascia, offers a smooth, easy-to-clean surface that ensures a clean and hygienic environment. Maintenance is simple and efficient, contributing to a healthier living space.

Customisable Fascia Options: The fascia can be supplied with Smooth Hygienic Sheet, textured impact protection sheet, or Aspex Digital Printed Sheet, allowing you to create a homely feel by selecting an image for the door.
